

GENERAL SAFETY INSTRUCTIONS

Risk of injury!

Improper use or handling of the product may result in injury.

Extended listening at high volumes may lead to hearing loss.

To avoid injury, listen at reasonable volumes for limited periods of time.

- Connect the product only to a headphone output. Do not connect it to the speaker output of an amplifier.
- Set your audio source's volume to a low level before putting on the product.
- Be mindful not to increase the volume continuously as your hearing adapts.
- **Suffocation hazard:** Children may become trapped in the packaging film and suffocate. Keep all packaging materials away from children.
- Do not allow children to play with the product. Ensure they do not remove small parts or put them in their mouths. Avoid entanglement by keeping audio cables out of children's reach.
- **Road safety risk:** The product significantly reduces external noise. Do not wear it while driving or cycling. Pedestrians should remain alert to their surroundings, especially when crossing streets.
- Do not use the product in environments where there is a risk of explosion.
